September Weather

The mean temperature last month, as reported by Observer Shilling of the local weather bureau, was sixty-three degrees, which is practically the normal for the month. The precipitation for the month was seven-tenths of an inch, while the normal for the month is one and one-half inches. During September of last year the precipitation was 1.81 inches. Many Golfers Out Sunday

Golf enthusiasts were out in full force on the links Sunday, notwithstanding a stiff wind during the afternoon. Arthur Rush made the low score of the afternoon, showing the boys he could "come back" on a nine hole link. Theatre Booking Light.

Manager Garman, of the Keith theatre, says his theatrical bookings for the coming season are very light, and the chances are he will not have many offerings. The same condition prevails in all Nebraska towns, few attractions will be on the road. This is probably due to the fact that so many of the better class players are under contract with the movie picture film companies.

Brick Laying Started.

Concluding not to further wait on additional men to arrive from Omaha, Contractor Stack started laying paving brick yesterday afternoon with one brick layer and six tenders. It is expected that the eight Omaha men will arrive tonight or tomorrow. The first brick to be laid is on the block on Locust between Third and Fourth.

Objected to Being Disturbed.

A man giving the name of Matson, home at North Platte, was arrested by Officer Laughton Saturday evening and lodged in jail. Today he is to be given a hearing and Special Officer Watts, of the U. P. force, will prosecute him for creating a disturbance.

Matson was asleep on the coal tender of passenger train No. 3, when that train pulled into this city Saturday night. Upon their arrival here the engine took water and the "dead head" passenger objected to having his sleep disturbed when the fireman clambered over the tender. He objected strenuously, as much so as his six feet and about two hundred pounds would permit. The engine crew did their best to quiet the man but it was not until after Laughton arrived that this was accomplished.—Kearney Hub.

FOR RENT

Houses, rooms, storage room and safe deposit boxes.
BRATT, GOODMAN & BUCKLEY.

Something entirely new to Tourist sleeping car and chair car passengers, has recently been adopted by the railroads. This is a feature which has come to stay—consists of lunches and hot coffee, served in the chair cars and Tourist cars, popularly known as "Off The Tray" service.

This adds to the satisfaction of travelers carrying lunches, as they may add to their provisions as desired; hot coffee, milk and choice of sandwiches, doughnuts, boiled eggs and fruits at popular prices.

This is especially appreciated by women travelers, particularly when they have children with them. It provides a wide enough variety of foods, so that she need not go into the dining car, or certainly not for every meal, unless she wishes to.

"Off The Tray" lunches consist of the same high quality foods as served in dining cars and are served by uniformed waiters either shortly before or after dining car meal time.

Union Pacific is the only railroad in the west that has put in this service, but others are expected to follow the lead, as it has proven unexpectedly popular among travelers.
